Customer Reviews

Jason is the CEO of a company and he breaks up with his rich model girlfriend. She makes things difficult then he meets Kaylee who owns a bakery and the paparazzi follow them. Kaylee agrees to

be his fake girlfriend and they become friends then more. I liked how the author took her time to build the relationship between Kaylee and Jason. They didn't just jump into bed or claim love when they barely knew each other. You could see their relationship grow. And normally, I am not a fan of first person but in this case the flow was so smooth that it didn't seem like the other point of view was ever missed. I didn't find a lot of grammatical errors or other issues. Took off a star because parts of the story were a reach. Most of the story was realistic- assuming you ignore that apparently billionaires are a dime a dozen and yet again there's a billionaire falling in love with someone- but seems to be Jason was a little wimpy in his dealings with the girlfriend and acted like a juvenile hiding out with Kaylee. The man is CEO of a company and makes oodles of money. He shoulda grown a pair way faster than he did and just told the ex to move on. Or just ignored her. Also, why are paparazzi following them. He's not an actor. I actually had to go back to see whether he really was an actor to justify all the interest in him. Regardless, I like the writing of this story and would recommend it. My book came with a second story- Unwanted Baby for Christmas. That book was a hot mess. The writing flowed and there were no grammatical errors but the story was ugh! The lead characters had a hook up at a night club after knowing each other for about 3 paragraphs and didn't even exchange names and she got pregnant.
