Product Dimensions: 8.1 x 5.6 x 0.7 inches

Shipping Weight: 13.6 ounces

Average Customer Review: 4.4 out of 5 starsÂ Â See all reviewsÂ (9 customer reviews)

Best Sellers Rank: #1,193,682 in Books (See Top 100 in Books) #267 inÂ Books > Science & Math > Biological Sciences > Zoology > Animal Behavior & Communication

Customer Reviews

Each chapter is written as if it were a separate article and often repeats itself from the previous chapters. Even so there is usable information. The book is easily read in an hour. Although it does not contain any instruction, it does include insight into how animals think.

I read this originally years ago when it first came out. I think I got it at the library or something. It is a GREAT book. I had tried the methods she uses right after I closed the book when done and found them Amazing. I do not continue to talk with animals on a daily basis because my life is usually a handful to keep under control. But, I have been So Grateful to have on occasion spoken to an animal or two since then. Always a heart warming experience to carry in one's heart. One sweet little dog actually told me he knew I knew things and asked me if he was going to Heaven. Sweet boy never did anything really wrong in his life. He died a short time later and I am sure he went to Heaven. I don't guarantee everyone will learn to talk with animals. Of course you would need to be able to bracket your own Ego first. Most will not be able to get even that far.

Read when it first came out and loaned it but then it never got returned., Have been looking to replace it for some time and delighted to get another copy. It was in nearly new condition and the one I loaned was well used.

Many years ago I purchased this wonderful book and found it very comforting when my dear pets passed on. This book I'm giving to my niece and hope she experiences these same feelings. I highly recommend B. Lydecker's book to anyone who's on the fence regarding animal souls.. All souls are energy and energy never dies, it just changes form.

Excellent book, loaned my copy as well as a friend of mine loaned her copy. I checked and what do you know, I was able to get not only a copy for my friend but myself as well. If you have pets, I recommend this book. There are some surprising things that the author Beatrice Lydecker has to say. I especially was comforted when my closes friend my dobie passed and the ending of the book helped my with perspective. I was so disappointed when my book was not returned, but I was thrilled at finally finding a copy.
