# The Art Of Stalking Parallel Perception - Revised 10th Anniversary Edition: The Living Tapestry Of Lujan Matus

## Synopsis

The Art of Stalking Parallel Perception is a new kind of autobiography - an interdimensional odyssey that weaves its magical threads through one's own existence in a way that has to be experienced to be believed. In this revised edition, Lujan clarifies and expands upon key elements of his teachings. Listeners familiar with the original will be surprised at the awakenings that unfold via powerful additions woven throughout the text. Some chapters have been removed, others expanded upon, and exciting new material has come to light. Throughout this book, we accompany Lujan Matus during pivotal journeys on his path to becoming a shaman. With in-depth explanations, he and his benefactors impart an empowering sequence of transmissions that offer unprecedented insight into the intricacies of human existence. In sharing his experiences, Lujan opens the door to a universe of mythical proportions and bestows vital keys to access these dimensional possibilities in one's own life. The Art of Stalking Parallel Perception magnifies the essence of the ancient wisdom traditions in a functional, non-dogmatic format that speaks directly to the heart. One may recognize strands of Tibetan Dzogchen and Taoism, and aficionados of Toltec wisdom will discern the unmistakably potent voice of Don Juan Matus and discover the mysterious guiding influence of the ancient seer, Xoxonapo. With direct language, Lujan conveys an otherworldly grasp of human nature, not to mention coherent accounts of interdimensional travel, a precise description of the enigmatic manifestation of the energy double, insights into the nonlinear nature of time, and the elucidation of hieroglyphs that are maps to completely open one's perception, this is a bridge to new thresholds unlike any other.

## Book Information

Audible Audio Edition

ASIN: B01ATPQWR0

Best Sellers Rank: #71 in Books > Self-Help > Spiritual #116 in Books > Audible Audiobooks > Religion & Spirituality #190 in Books > Audible Audiobooks > Health, Mind & Body > Self-Help

## Customer Reviews

Extraordinary Book for anyone reading in esoteric studies for self-transformation. The Revised 2nd edition of *The Art of Stalking Parallel Perception*, the first book by Lujan Matus, brings to bear ten years of questions and feedback from students and readers and incorporates some new information and very useful clarifications. From the first page the author takes the reader into the alternate realms and so starts the biographical tales of his (and the reader's) learning. Part one covers mostly key interactions with his teachers who are quoted in their own words as well as some new parables with clarifying explanations. Part two mainly imparts and unpacks theory, and has question and answers sections. In terms of theme the book magnifies the essence of the ancient wisdom traditions in a functional, non-dogmatic format that speaks directly to the heart. Lujan provides various key details, but goes further to highlight the role of the heart as an organ of perception at the root of seeing. Working with this book continues to be an immensely valuable experience. While I feel everyone should read it, those pursuing self-actualisation on any path will find a gateway to deep, pervasive and relevant insights rarely articulated in words, or able to so elegantly introduce one to oneself and the realities we forge our path in. This reality-check alone is worth the study but that is just one aspect. The text is written in unusual language and visual metaphor in places which forced me out of my standard reading trance into paying a new type of attention. One-pass readers would not do the text or themselves justice.
