# Calling Cards: Uncover Your Calling

## Synopsis

Calling Cards are an interactive tool built to accompany the book *The Power of Purpose and Work Reimagined*. Using the cards exposes a reader to many different skills, asking him or her to reflect on their own strengths. The reader then chooses several that reflect their greatest assets. The reader is finally taken through an exercise that uses the results to help identify a new life calling. Additionally, the tool can be played by a friend or family member to offer multiple perspectives to help the reader gain deeper insight into his or her own gifts.

## Customer Reviews

I am a mental health therapist and watched a public tv show where Richard Leider presented his concepts. I was impressed by his authenticity and insights, so I decided to get a multiple titles of his books and also these Calling Cards. These calling cards are so simple to use and bypass the usual struggle of over analyzing what you truly like to do. What your 'driving needs' are. Your "motivated skills". My husband and I tested them out today and did them separately (for ourselves) and then double checked with each other to see if we agreed not only with our own - but with each other's results. And we did. It was simple, quick, and very revealing. Additionally, we laid out our top five cards and saw that they actually build on each other into a literal sentence (eg: the tie together literally into their own sentence about us) that very accurately showed how we focus and what we prefer. I am impressed, and bought 10 more to give to clients to use. EXCELLENT !!!

Absolutely terrific for creating your personal mission statement.

They're okay; noting new

Great graduation gift for a high schooler confused about what to study in college or someone looking to change career paths or just for the fun of it!

Excellent idea. Didn't help me discover anything I didn't already know/ thought about. I can see how it can help the novice looking for direction.
