Just One Damned Thing After Another: The Chronicles Of St. Mary's Book One

Synopsis

The first book in the USA Today bestselling British madcap time-travelling series, served with a dash of wit that seems to be everyone's cup of tea. History is just one damned thing after another. Behind the seemingly innocuous facade of St. Mary's Institute of Historical Research, a different kind of academic work is taking place. Just don't call it time travel; these historians investigate major historical events in contemporary time. And they aren't your harmless eccentrics either; a more accurate description, as they ricochet around history, might be unintentional disaster-magnets. The first thing you learn on the job at St. Mary's is that one wrong move and history will fight back; sometimes in particularly nasty ways. But, as new recruit Madeleine Maxwell soon discovers, it's not only history they're often fighting. The Chronicles of St. Mary's tells the chaotic adventures of Max and her compatriots; Director Bairstow, Chief Leon Farrell, Mr. Markham, and many more; as they travel through time, saving St. Mary's (too often by the very seat of their pants) and thwarting time-travelling terrorists, all the while leaving plenty of time for tea. From eleventh-century London to World War I, from the Cretaceous Period to the destruction of the Great Library at Alexandria, one thing is for sure: wherever the historians at St. Mary's go, chaos is sure to follow in their wake. Skyhorse Publishing, under our Night Shade and Talos imprints, is proud to publish a broad range of titles for readers interested in science fiction (space opera, time travel, hard SF, alien invasion, near-future dystopia), fantasy (grimdark, sword and sorcery, contemporary urban fantasy, steampunk, alternative history), and horror (zombies, vampires, and the occult and supernatural), and much more. While not every title we publish becomes a New York Times bestseller, a national bestseller, or a Hugo or Nebula award-winner, we are committed to publishing quality books from a diverse group of authors.

Customer Reviews

I picked up this book for two reasons. First the title made me chuckle to myself and second what at a quick glance was a cup of coffee, though I know better now that it is a cup of tea. I didn't even read the synopsis, I just clicked download and moved on looking for other little tid bits. At about 10 pm last night I cracked open my kindle and shuffled threw those tid bits and set myself to read this oh so very wonderful book. I haven't slept yet (its about 4 in the afternoon now and you will have to excuse me if I ramble, I get like that when I'm over tired and hyped up at the same time), my kindle died in the middle of a very exciting paragraph (I threw a minor tantrum at that) and I have consumed way to my caffeine (this is something that is actually pretty normal), all because I just couldn't get enough. I should have known before I even started the first chapter I was going to like everything about it. Jodi Taylor had just one thing to say, "I made all this up. Historians and physicists - please do not spit on me in the street." I got pulled in and wasn't let go until my eyes just about bled from being open for much to long. I barely even know where to start, Max is just the kind of person I would want to be around all the time. She cracked me up just about all the time. She was perfect and perfectly flawed at the same time, she seemed real, someone I could look up and then possible stalk. There is not one thing I didn't like about her. The story build up, the cleverly left hits that you notice but think nothing of until they all link together to expose the bigger picture. I didn't even care that the time travel wasn't explained, I didn't want to know how it work I just wanted them to hurry up and do their thing and entertain me.
