Demons In Disguise

Synopsis

Everyone has an opinion. It does not matter whether you're a New Ager, a UFO researcher, a student of the Bible, or simply a curious party. Theories regarding aliens range from believing that the whole alien phenomenon is nothing more than an elaborate hoax, to the belief that they are real and getting ready to take over our world, to the view that they are demons disguising themselves as aliens. Who is right? Can we know? Each reader will undoubtedly have their own opinion about the subject of extraterrestrials and their goals for earth and its people. In this book, author, speaker, and teacher Fred DeRuvo culls information and research from a variety of well known researchers and authors in the field.

Those of you who might have grown up with Christianity or are practicing Christians have wondered about these two categories most churches never mention: demons and aliens. This book makes a logical argument, citing continuous deductive reasoning why his hypothesis might be so. I appreciate the logic used, and to me his correlations make sense. His book will help you think and come to your own conclusion.

Read it in one sitting... interesting!!!!

Not what I expected. Mostly turned out to be a long, redundant sermon. I wouldn't recommend it, unless used as a church lesson.
