Raptor (Dragon Blood Book 6)

Synopsis

Responsible for her friend's death, Lieutenant Caslin Ahn wants nothing more than to be left alone. She no longer deserves the company of comrades or the fulfillment she felt as a Wolf Squadron fighter pilot. But a summons from the king leaves her with no choice but to rejoin her teammates. An ancient evil has been unleashed, bringing death and destruction to the nation, and they are the only ones with a chance of stopping it. Dragon Blood 6 brings back Cas, Tolemek, Ridge, Sardelle, Kaika, and Tylie, as well as her dragon, for a new epic fantasy adventure.

I'm not an avid reader, But I decided to check this series out, and got hooked. Lindsay keeps me laughing and amused with anticipation of what is going to happen next in the plot. Raptor book 6 Left me wanting more. So I grabbed my tablet looked on kindle and found she has another book coming out in December so I preordered it right away. Can not wait to see what happens next. I did see however that this next book may be the final installment of this series I hope not though because I love reading about the adventures Sardelle, cas, Deathmaker, jaxi, & Ridgewalker and

many more characters that are in her series of books. Lindsay has made me want to read again and that says a lot to me and the people around me. Some of my friends are even now interested in the story and have borrowed my books. lolThank you Lindsay for your great story telling. :)

Note: I received a review copy.Somewhat spoiler warning: This ends with a cliffhanger. The author's endnotes states that the "final installment" will be released 12/22/2015.Less spoiler-y warning: There is a book 5.5 (see my other reviews). I highly recommend 5.5 before embarking on book 6. 5.5 is a shorter oeuvre, and explores less-explored characters. While you don't need to do so, the character exposition and adventures in 5.5 will enrich your enjoyment of 6.This book goes into Cas (one of the protagonists in "Deathmaker," book 2) in quite a bit of depth. We also get a lot of dialogue from one of my favorite characters, Jaxi. Cas has become depressed over the events of "Blade's Memory", book 5, and this is mostly Cas's adventure. As is usual, Lindsay Buroker weaves fast, headlong action, together with engaging characters (even the somewhat villainous ones), and snappy dialogues--internal and external. A new villain (or villain upgrade) appears in book 5.5, but book 6 is the full entrance, and Cas gets to try to help solve problems. Don't worry, though--we get a lot of Ridge, Sardelle, Tolemek, and how can we forget Jaxi?If you've read the other Dragon's Blood books, you won't want to miss this installment. If you can't stand a cliffhanger, wait 2 months, and buy books 6 & 7 when book 7 comes out. You can scratch your itch with book 5.5. If you haven't read the other Dragon Blood installments, find book 1 and try it. If you enjoy (mind you, book 1 ends neatly, so you can choose to stop at just 1 book), then, buy the rest of the series.

This is, without a doubt, the BEST Dragon Blood installment yet! I am completely breathless, a thrill ride from start to finish - beyond the end even, because based on that ending, this adventure has just begun. And there is no one that I trust more to deliver the best ending to this series than Lindsay Buroker.One thing that has become crystal clear while reading this series is the fine line that an author walks between making situations either overly serious or overly humorous. From the start I have loved the humor and wit that Buroker infuses into her characters, but not once has it taken precedence over just how serious her plotline is, that her charcters are fighting for not only their lives but a whole country's while they fight a war. It is so easy for humor to take away from that, and on the flip side for an extremely serious situation to drain the personality from the characters. NOT THE CASE HERE! Buroker walks that line like a pro, and that is what makes this series so wonderful. Her characters are so rich and so vibrant and brimming with personality that my heart can't take how much I love them.If you are a fan of fantasy, do what is good for you and READ THIS

SERIES!

I am so happy to have stumbled upon this series. I started reading the first book on Oct 28th (thank BookBub) and got sucked right in. It's Nov 1st and I just finish this book (7th in the series counting Under the Ice Blades) and I am so happy that I don't have a long wait because the final installment comes out in 51 days!!! Thank you Lindsay Buroker for an action packed series filled with strong female characters, great leading men (I'm loving the brooding pirate Tolemek), magic and dragons!!! Love your writing (and appreciate your use of archaic words - love expanding my vocabulary so my brain is constantly challenged, lol) and the easy flow. You have a gift for writing -- great visual descriptions that are not overdone or detracting from the pace of the story line (I'm thinking of Robert Jordan here, r.i.p., where I think I stopped after the 9th book because it took too long to read) love the dimension of the characters and their development, love love love the action scenes and imagery, love the kick-ass and snarky elements and love the strong female leads. So happy to have found you, you are on my favorite author list with all time great, Anne McCaffrey, and my most recent additions, Meghan Ciana Doidge and Samantha Shannon!

A worthy addition to what's becoming an excellent series. The previous entry in the series is a novella, which I never feel give enough time to development of the situation, so it's good that this is back to novel length and fully satisfying. It also deals with exactly what I wanted dealt with next: the experience of a character who had been through a terrible time in the previous novel and was coping with the aftermath. She copes very well, but has believable amounts of struggle in doing so. The action and the plot are reliably enjoyable, and overall this is a good Buroker, which is to say it's entertaining and well written. I read a lot of this author's books, and it's good to see the number of editing errors diminishing (though she still confuses "breach" and "breech"). Don't start here, start with the first in the series. But if flying aces, dragons and romance appeal to you, do start reading these.
