I have cruised the Bahamas aboard all kinds of small boats for over 30 years, and I wouldn't go without Stephen P's books. There have been many Bahamas cruising guides written but many fall far short of the complete story. Stephen P. has spent many years in the Bahamas. His guide info is virtually faultless. His charts are the best and amazingly accurate. This is not always the case with other guides. His stories and "local knowlege" is historic. He spends countless hundreds of hours on sight to obtain the information needed to produce a really good guide. He is an active ham radio operator so you can talk to him anytime and discuss his works. I guess it's obvious that I love the Guide. Stephen Crow K4CPX

An indispensable guide to plan your trip to the Sea of Abaco. Great Charts, Directions, Suggestions. You name it, it's got it. Although, I am geographically-challenged, I had no problem trolling the waters of the Sea of Abaco for a week thanks to the Abaco Guide.

The retail price on this book is \$39.99 and is readily available elsewhere... so \$194.95??... come on ..screen out your ripoff merchants
