Right Out Of Nowhere

Synopsis

Roni Oatman belongs to a crew that conducts Search and Rescue Operations for the Forestry Service deep in the Bitterroot Mountains of Idaho. They save lost people, but Roni is a bit lost herself. She's a loner who loves a woman she can't have. When the SAR crew is short a member, Selena Ayala is assigned to fill the empty spot. Still on the rebound from a sudden breakup with her girlfriend, Selena has issues of her own. But she has to find a way to gain the crew's trust, and gain it quickly. Often the missions in this rugged and unyielding wilderness are matters of life and death, and the SAR members have to be able to depend on each other. Just when Roni and Selena are forming a tentative friendship, Selena's ex shows up, leaving both Selena and Roni with uneasy questions. Can the two women search deep within to rescue themselves and to find love right out of nowhere?

Customer Reviews

About why all the 5 stars for this book. It was a very basic plot with no angst, no real build up of romance and it wasn't written very well. I would give it a 2.5 if possible but I decided to round down since the book had nothing special or even worth paying for. The author needs real critiques and

honest work. I see potential but I wouldn't pay 8.99 for this.

While I don't normally pick up straight up romance, the allure of SAR and the setting drew me to this book. I was not disappointed at all. It is more than just a straight up romance, in my mind. I don't believe in giving out too much in the way of spoilers, but I absolutely loved the relationship between Roni and her brother, her parents, and her sister-in-law. I can just picture her and Jeff bickering as many siblings do. I also loved "Puller." He added a different concept of a SAR dog. There was suspense, action, romance and humor all rolled into one that made it a great read all the way around. It was so much more than what I expected. If you like outdoor adventure and romance then read this book. Thank you Ms. Salzler for another great book.

Roni doesn't want a third SAR member and certainly not a stranger but she has no choice, the company was forced on her. When they discover more about each other, respect becomes something deeper. Now Roni has two options. One, move on, open your heart and two, hold on to what has defined your love life for so long. Will Roni finally find out what true love means, how falling in love feels? I love the banter between Roni and Jeff. Every time they were together it brought a big smile on my face. This book has so much detail of the surroundings, the search, the rescues, the wildlife and the wilderness. You feel as if you are one of the SAR team. It is as if the author writes with a photographic pen. Everything seems so tangible and vivid. The author writes about it in a way that puts you there with them. This book is not only an excellent romance but it offers you also a glimpse of what it's like doing search and rescue in a remote landscape. It's a sneak peek into the fascinating world of the SAR. This was a "can't put it down" kind of book. I love everything, just everything in this story. I couldn't turn the pages fast enough. The easy style of writing was very enjoyable. All the characters have depth and the animals, oh boy, do I love them. Puller and Sparky are my heroes. I highly recommend you to get this book. It's the best romance rescue by far that I've ever read. You will not regret the purchase.

I did enjoy the novelty of reading about horse riding and soaking in hot springs. I liked the description of the scenery and could imagine myself there, and the situations the characters got themselves in. So in that way I am giving this book the three stars. What I didn't like was the utter childishness of the main character who was in a position of relative importance in the saving of lives. I thought she was too immature to hold that position, with not enough nous to assess and execute rescues.

I believe Salena rescued Roni from her own heart! This was a wonderful read, great length, and the characters were sexy and funny! In the beginning the tone was set with humor between Roni and her brother. I absolutely loved that she went on the first rescue and he stayed back to be radioed. True respect. And then there was Salena, a new Search and Rescue person that would be staying the summer while Jeff returned to his wife. The description of the mountains, wildlife, and Salena (Hot) were amazing. And I too have a new found respect for something I knew nothing about. This was a great read and probably the best book I have read in a while.

From the reviews of this book I was expecting much more. I loved the characters and some of the rescue scenes were exciting. I enjoyed the development of the relationship between the two main characters but the book never really picked up momentum. It became really drawn out toward the end and I kept waiting for something more to happen. I re-read many of my favorite books and though I enjoyed this one I wouldn't read it again

I read this book in one sitting and I know I will be rereading this book many times over. I appreciate now so much more than I did for SAR (Search and Rescue) teams who risk their lives so others may live. I learned to appreciate the beauty of the mountains and the danger that lurks in that beauty. I understand now the psyche of horses. Like humans they too can be damaged by abuse and neglect. Their confidence too can be crushed. This book has a trio of characters who has a loving and professional relationship. One of the three harbors a secret and so cemented in this that she cannot see what she wants will nor can it ever be. She has settled for being the third wheel and lonely. A fourth person becomes a part of this trio and fits perfect and opens Roni's eyes to what her love really is and isn't. Puller holds a special place in my heart. A darling of a character. This book is not to be missed and should be added to your to read list today! To find out about the charms of Puller you have to buy the book.
