## Synopsis

For dinophiles of all ages, Hunting Dinosaurs does for paleontology what Indiana Jones did for archaeology--makes scientific adventures exciting and entertaining. The stunning, full-color photos contained here present dinosaurs as never seen before.From the Trade Paperback edition.

## Book Information

Language: English

ISBN-10: 0679431241

ISBN-13: 978-0679431244

Product Dimensions: 1.2 x 9 x 11.2 inches

Shipping Weight: 2.6 pounds

Average Customer Review: 4.7 out of 5 starsÂ Â See all reviewsÂ (11 customer reviews)

Best Sellers Rank: #1,213,932 in Books (See Top 100 in Books) #47 inÂ Books > Science & Math > Biological Sciences > Paleontology > Vertebrate #5721 inÂ Books > Science & Math > Evolution

## Customer Reviews

I have read this book cover to cover and hated to put it down when I was required to be somewhere else.I got this book 20 years ago as a $1 add on with free shipping based on another order. It was shiny big and looked interesting.THIS IS AN UNDERSTATEMENT. After buying a second copy I sent it on to my brother who then passed it on to his son etc .THIS IS NOT A BOOK FOR FOLKS UNDER THE AGE OF 18 simply because of the concepts of what the author did in his investigation of facts and details. The things Louie did in his investigation would today get you in the slammer in a heartbeat if you tried to do what he did as there are few folks with the time to understand the details and the documents. Today folks just arrest anything they do not understand and pass it on the next level who will do the same until your day or week is shot.NOTHING ILLEGAL HERE but there is enough strangeness to cause you a great deal of difficulty if you tried to do today what Louie did 25 years ago.Some places consider picking up dirt to be a felony and I suppose if you took dust off a rock inside the Alamo that would be illegal. Times are different now but with some skill and education you might spend the rest of your life HUNTING DINOSAURS.THERE IS A DOWN SIDE!!!!! YOU WILL WANT TO READ "THE GUILDED DINOSAUR" NEXT, AND THEN AND THEN, AND THEN. By the time you have. Probably 1 of 1 million who pass through Harvard or Yale University halls will have a clue that what they see was initially paid for on the backs of Dinosaurs

and two professors who did the digging.This is addictive and the thing is that anyone who can find the KT boundary in a hill side can find bones teeth and shells.
